Pres. to Don Wilson USIA - Should we drop pictures to Cuba - Has
Castro admitted missiles -

McCone

Const. on sites continuing - armed forces continue on alert. Dissidents
being rounded up. Turk & Copenhagen & other sources say 14 (19?) of
22 have turned back - 1 ship has 12 helicopters aboard. See no crash
procedures re Soviet armed forces. Canada found 2 East German
missile technicians & 5 Czeck technicians. (They were allowed to continue.)
Low level photography very successful - Castro sent drug list - baby food -
plasma - turned over to Donovan - great anxiety in Havana.

Overnight Military Sit

McNamara 6 Eastern Time Destroyer Interceptor tanker Bucharest -
Black Sea - Havana POL Destroyer maintaining surveillance - should
selectively board non-bloc ship - establish boarding as a pattern.
Tanker will reach barrier 8 p.m. Fri. night (ammonia tanks). Low level
surveillance consistent with air attack - evidence camouflaged Sams
sites - Instructed planes not to fire & subs instructed not to attack - Naval
craft not to move out of port. 3 advantages low level flights -
1. Intelligence, 2. Pattern of attacks reduces warning, 3. Not only
stop missiles but determine whether they have removed missiles. 8 U4A
aircraft - IL-28 - Mig & 9 missile sites - Sams sites - Komar & coastal
missile sites & nuclear storage sites - announce unarmed surveillance OAS,
etc. - ordered done - Pres.-Taylor-Telephones. Some possibility can
destroy missile sites with very few aircraft. Missile sites are 8 hrs. from
launch & aircraft have orders not to fire. Then we might go in & take
missiles out. - McNamara - Include in list missile - a number of tankers
without deck cargo were passed.

Rusk political question U.N. Harlan Cleveland Stevenson would like
reply with short -
McNamara - quarantine must not be removed unless we can get missiles
& planes removed.

Major Alternatives for Removing Missiles

(1) Do we go get a ship - between now & tomorrow a.m. Do we move
toward U Thant (status quo) - What is minimum status quo - We have
stopped offensive weapons to Cuba 1/2 of our objective ground. How
do we get other 1/2 remove missiles -
